**Under the Investing for Success Agreement for 2018
Blair State School received**

\$ 201,826

Our full 2018 agreement can be found at: www.blairss.eq.edu.au

Our school initiatives are showing substantial progress toward our targets

After reviewing our 2018 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- refining our high quality teaching and learning culture reflective of high expectations in achievement, attendance and behaviour of students and adults.
- building on teacher capability to develop a deep understanding of the Australian Curriculum to collaboratively plan curriculum units with support from a Head of Curriculum and teacher release to participate in year level planning days.
- extending the data literacy and analysis skills of teachers in the use of student data with precision to align teacher planning and pedagogical practice to the learning needs of students through case management and professional learning.
- refining effective and efficient school practices and programs which monitor improvement and ensure school-wide consistency in the teaching of reading and in particular reading comprehension.
- entrench consistent quality practices in the learning community supported through peer mentoring, quality coaching and feedback opportunities, collective curriculum planning days, peer and inter-school moderation of student assessment.
- tailoring well-resourced needs based support programs for identified individuals or groups utilising specialist teachers and teacher aides.
